

IMPORTANT UPDATE TO VUBIQUITY SATELLITE PAY-PER-VIEW SERVICES

Effective February 1, 2020, Vubiquity satellite Pay-Per-View will be migrating to part-time channels, featuring exclusively LIVE Pay-Per-View events.

What does this mean?

Beginning February 1, 2020, satellite-delivered Pay-Per-View programming will solely consist of LIVE Pay-Per-View events. The channels will no longer include taped (non-live) Pay-Per-View events and Pay-Per-View Replays will be provided on a case-by-case basis.

What do I need to do?

You will need to reconfigure the satellite receiver for the new downlink frequency parameters.
